LOVE THAT TRANSFORMS LIVES

Trumpet Call Ministries Mexico has received a new call for missions in 2026! Our Lord Jesus Christ has just opened the doors for the ministry to serve vulnerable children and their families at the Children's Hospital in Tlaxcala, Renal Department. The General Director of the hospital had a special request for us - has asked the ministry be the special sponsor of the children of this area! Every day these children fight against kidney failure and receive hemodialysis treatment. He mentioned that these children have not been noticed by society, and unfortunately, they do not receive outside support.

Families from the outskirts of the state of Tlaxcala go to hospitals in the capital for treatment. Most come from vulnerable communities, and receiving treatment for their children is a very heavy responsibility, both economically and emotionally. In addition, "The mental health of these children is very sad. Many suffer from unimaginable abuse at home, and many suffer from depression and do not want to continue their treatments," says the General Director.

So, on February 27th, Trumpet Call Ministries Mexico met and served 50 children at the hospital for the first time. We shared our Lord's plan of salvation with them and their families, and over half responded! We also distributed kits of basic toiletry supplies and, of course, each one included a reflection of the Holy Scriptures to encourage them on their journey. Many expressed sincere thanks for the support. In addition, many came forward to receive special prayers. The Lord is making something beautiful happen there!

We are in communication with the staff at Children's Hospital to fully understand how we can best serve this community. In addition to distributing these grooming kits, we already have many ideas that first need approval and financial support, including fun monthly rallies designed to motivate children on their journey to fight their disease. But the most important thing as their new sponsor is that we want to offer them a lot of love, hope and encouragement.
Stayed tuned for more development of this beautiful project. We are thankful that the Lord has prepared us and is sending us to this special community in Tlaxcala.

Andrea Byrn, Director

Blessed are those who have regard for the weak; the Lord delivers them in times of trouble.
Psalm 41:1

VOLUNTEERS

We want to thank you for the great work you do in the packing and distributing the food supplies each month. Above all, we are grateful and excited that you too are excited to help with each activity that is carried out in the ministry. May the Lord bless each of you for such valuable support! With this new project for the children undergoing blood dialysis at the Children's Hospital of Tlaxcala, our new mission project, we are now going to make monthly kits of different kinds depending on their needs. Knowing your heart to serve others, I know you will be thrilled to help these children and their families preparing their special kits. And just so you know, there will be opportunities to love on them with activities we have planned in the future!

DONORS

The ministry always recognizes that without your collaboration and support we would not be able to reach the hearts of our beneficiaries, and we would not achieve our primary objective to bring love and hope, through the word of God and through tangible necessities. This is a team effort. We all have something to offer and an important role in the ministry so that Trumpet Call Ministries Mexico can bless the needy in Tlaxcala. We thank you and bless you for your generous support.

We are needing more good people like yourselves to support our new mission project for the children fighting for their lives in the blood dialysis department of the Children's Hospital in Tlaxcala. Please, if you know anyone in your family, work or friend groups who have a heart to serve needy children, please let us know. They need our support. Thank you.
